 - o Tylenol 3 Prescription to be filled at Pharmacy.
 - o Ibuprofen 800 (bottle)
 - o Misoprostol (Bottle 8 pills, Packet 4 pills)
 - o Azithromycin (Packet- 1 pill)
 - o Meclizine (Packet- 5 pills)
 - o Applicator, wash and dry once home, do not throw away after first insertion.
 - o At Home Instructions
 - o At Home Pregnancy Test
- ❖ **Take antibiotic (azithromycin) with food**
 - o If you throw this up, still do the insertion tomorrow
- ❖ **Meclizine as needed**
 - o If nauseous at any point in this process (today, tomorrow, whenever)-take Meclizine (Anti-nausea med) 1 every 8 hours

Day 2- Insertion Day

THE FDA RECOMMENDS PATIENTS VAGINALLY INSERT 4 MISOPROSTOL 24 TO 48 HOURS AFTER TAKING MIFEPREX (FIRST PILL) WITH THE DOCTOR. YOU MAY TAKE IT BUCCALLY, HOWEVER, IT COULD CAUSE STOMACH/GASTRO UPSET

- ❖ 30 minutes before insertion- take 1 Ibuprofen 800 for cramps and 1 meclizine for nausea
- ❖ Insert 4 misoprostol vaginally as directed in counseling and the At Home Instructions.
- ❖ Patients over 9 weeks will insert remaining misoprostol 4 hours after first dose.
- ❖ Cramping, bleeding, and passing clots can start within 45 minutes, and last up to 12 hours
- ❖ Take Ibuprofen once every 6-8 hours **OR** Tylenol every 4-6. Do not take at the same time!!
- ❖ Drink lots of fluids, take it easy and eat light, nutritious food.
- ❖ After Day 2, call the clinic if you experience: foul odor& discharge, severe cramping that prohibits movement or blood clots larger than your fist. When calling the clinic, *have this form ready*, phone counselors will need information from it.

Follow Up instructions

- ❖ **Gestation at Termination:** _____
 - o **Under 9 weeks:** You will receive a Follow Up call 48 hours after your appointment. **We will leave a voice message to call the clinic, please return the call promptly.**
 - o **Over 9 weeks:** You must return to the clinic for in person Follow Up on: _____. If you cannot keep this appointment, call the clinic at (313)538-2020.

You will receive a text in 4 weeks reminding you to take the pregnancy test in your take home bag. Call (313) 538-2020 immediately if it is positive. **DO NOT TAKE THE TEST ANY EARLIER THAN 4 WEEKS.**
